Paris, France | Open to VIE opportunities and international relocation

PROFILE

Graduate of an MSc in Marketing and Data, I chose to complete my studies with an intensive program at emlyon business school in web design and development, strengthening the technical skills I needed to work hand in hand with engineering and data teams. I am currently completing my end of studies internship. A versatile profile at the crossroads of business, project management, product and data, I enjoy owning a product from framing to launch, with a genuine enthusiasm for product design and UI UX.

EXPERIENCE & PROJECTS

Product Analyst

Aug 2026 to Present

Europ Assistance (Redion), Information Systems Department, Paris, France

- Made sure every customer claim is processed correctly from start to finish, from the moment a case is opened to the final reimbursement
- Investigated missing or hidden cases caused by system bugs and recovered them so that no customer is left without a response
- Mapped how the CLINE product works step by step and documented it in Jira, giving product and business teams a shared reference
- Identified the main causes of recurring data entry mistakes and proposed a best practice guide to reduce errors
- Gathered business needs and framed a Power BI dashboard with search by case ID, then handed the specifications over to the data team
- Worked daily with product owners, project managers, data and engineering teams to keep the process running smoothly and support product quality through testing

Jury Prize, Hackathon

Jul 2026

Crosslines, La Toile x emlyon business school, Paris, France

- Delivered Crosslines from user research and Figma prototype to design system and final pitch, a collaborative web platform recognised by the jury for its business relevance and user centred design

Marketing Consultant, Freelance

2025 to 2026

Neads, Influence Marketing Agency, Paris, France

- Approached directly by the agency to contribute to an influencer marketing campaign as a freelance consultant, from brief through to delivery
- Coordinated content and creator deliverables in line with the client's brand guidelines and campaign objectives, keeping the project on brief and on schedule

UX Project Manager

Mar 2023 to Sep 2024

TANKE, Influence Marketing Agency, Paris, France

- Acted as the interface between product, design and engineering teams in an Agile and Scrum framework, owning user stories and backlog prioritisation
- Researched and analysed user needs for the Tribz mobile app and turned insights into product recommendations and UX improvements

Strategic Planner

Sep 2022 to Dec 2022

AustralieGAD, Advertising Agency, Paris, France

- Delivered data driven strategic recommendations and competitive benchmarks for banking clients including CIC and Banque Transatlantique, improving campaign performance by 12% through audience analysis and strategic briefs
